

The new FLEX Giraffe®. Light as air and best by far.

**FLEX**  
Das Original

### **Lighter than any other.**

Intelligent use of materials and weight-optimised design: at 3.9kg, the FLEX Giraffe® is almost a whole kilo lighter than its predecessors. This enables better handling and effortless working on high ceilings as well as on walls.

### **As handy as it looks.**

The unique balance concept of the new FLEX Giraffe® guarantees relaxed, balanced working. Thanks to its optimum centre of gravity and simple operation, sanding is noticeably more comfortable. The new D-shaped handle, slim tube with recessed grip, and optimised joint also contribute to the tool's exemplary ergonomics. What's more: the new FLEX Giraffe® is practically vibration-free.

### **As versatile as your tasks.**

Incredibly variable: the new FLEX Giraffe® is exceptionally flexible for various uses. This saves time and often makes special machinery redundant.

### **Convenient: extendible for ceilings up to 3.20 metres.**

### **Time-saving: sand right to the edge – thanks to the close-edge segment.**

# The new FLEX Giraffe®. The handiest ever.

Lighter, handier and more robust than ever: the fully redesigned FLEX Giraffe® impresses painters, plasterers, drywall builders and renovators with its high user comfort, versatility and reliable quality – made in Germany.

## Suction hoods with brush rim

The spring-mounted brush rim prevents sanding marks during application and ensures optimum dust extraction.

## Cardanic suspension

The gimbal-mounted sanding head with optimised joint guarantees excellent flexibility and optimal adjustment to walls and ceilings.

### Rotating close-edge sanding head\*

Whether sanding edges or wall-ceiling transitions: you can now also sand in places that previously required subsequent sanding either by hand or with special machinery. This makes the new FLEX Giraffe® so unique.

### Flexible drive shaft

... from engine to sanding disc: for reliable transmission, excellent flexibility and minimal weight on the head of the Giraffe for easy handling.

### This makes the new FLEX Giraffe® so unique.

- Extremely light – only 3.9 kg
- Optimally balanced – for comfortable handling
- Easily extendible – for high flexibility
- Close-edge sanding head\* – for universal application
- Innovative bag – for easy transportation

\* with model GE 5 R

### Full wave electronics

The speed control allows you to adjust the speed during sanding, while the full wave electronics maintain a constant speed under pressure. Furthermore: overload protection thanks to power regulation.

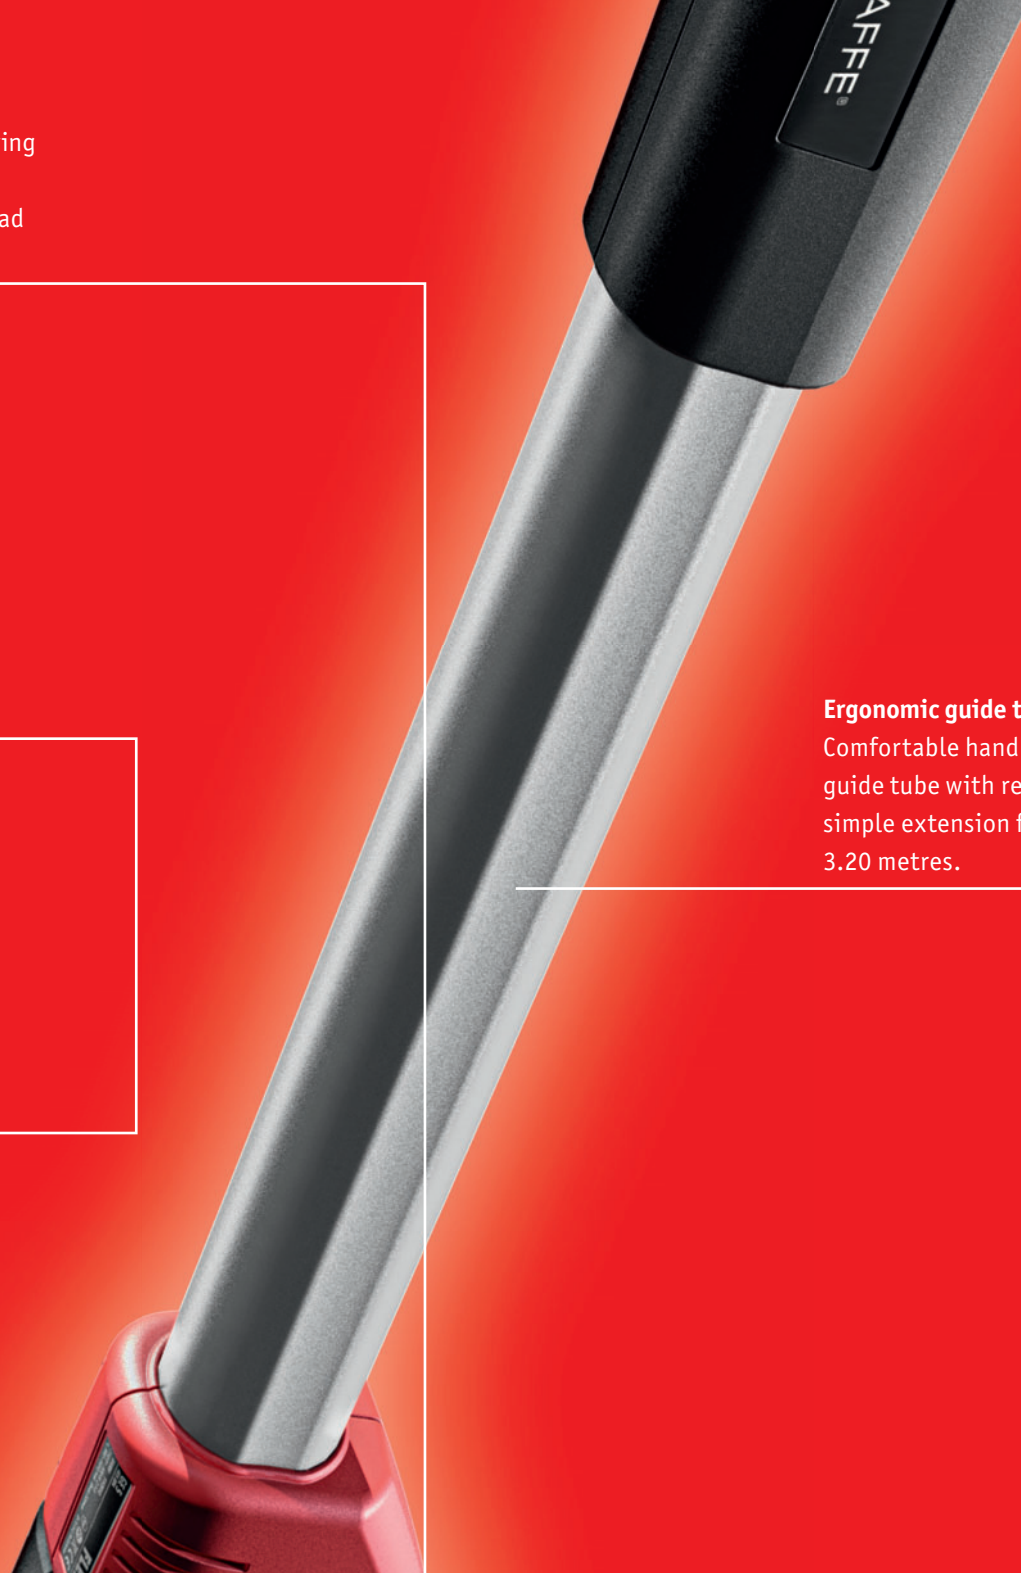

### The new FLEX Giraffe®: Pleasingly efficient

- Wide range of uses – can eliminate the need for special machinery
- Adapted accessories – increases efficiency
- Top efficiency – for a long service life
- Extremely light machine tool – ensures longer operating times

### Ergonomic guide tube

Comfortable handling thanks to the slim, oval-shaped guide tube with recessed grip – also available with a simple extension for maximum working heights of up to 3.20 metres.

#### **Innovative suction connection**

Direct connection of the vacuum hose with the FLEX clip system.

#### **On/Off switch**

Acceleration switch for a slow and sensitive start – with locking device for continuous use.

#### **D-shaped handle**

... for flexible and comfortable work.  
Protects the hose against kinks when stopped.

#### **Extension**

Thanks to the tool-free, click-in extension, the new FLEX Giraffe® can also sand at room heights of up to 3.2 metres comfortably and safely.

#### **The new FLEX Giraffe® GE 5 / GE 5 R:**

<b>TECHNICAL DATA</b>	
Sanding head diameter max.	225 mm
Idle speed	1,100 – 1,650 min <sup>-1</sup>
Power consumption	500 watt
Tool holder	Velcro-backed sanding disc
Insertable	extension, 500 mm
Angle of inclination on head	100°
Adjustable	speed regulation, 6 settings
Length (90° disc)	1,520 mm
Weight	3.9 kg
Connecting cable	H07 RN-F, 5 m
