

Simmm Powerclean 100/11 Electric Water blaster

Product Description

This superb Italian built electric waterblaster produces a grunty 11 L/min water flow @ 100 Bar (1450 psi). The unit is fitted with Simmm's patented ultra efficient pump with brass head and ceramic plungers and can be left running in by-pass for up to 5 hours without damage! The tough ABS plastic body (with integral chemical tank) is designed to take the knocks.

Output: Adjustable to 100 Bar (1450 psi), 11 L/min

Motor: 230 Volt, 50 hz, 4 pole (1450 rpm)

Current: 10.2 Amp

Hose & gun: 10 meter wire braided high pressure hose with couplers, professional style gun with swivel.

Ideal for use in Factories & Hire companies – anywhere there is only a single phase power supply.
