Power Trowels

The world's number one selling trowels for over 70 years. High horsepower engines and excellent rotor coverage have made this trowel the favourite of concrete contractors.

▶ Walk-behind Power Trowels

The world's number one selling trowels for over 70 years. High horsepower engines and excellent rotor coverage have made this trowel the favourite of concrete contractors.

B-Series 46" (1170mm) Width The Classic.

High horsepower engines and excellent rotor coverage have made this trowel the favorite of concrete contractors for generations.

Compact **QuickPitch™** handle folds away to save valuable storage space and ease of transportation.

FEATURES:

- 1 - Access panel
- 2 - Durable spider assembly
- 3 - Tough, long lasting gearbox
- 4 - Heavy-duty centrifugal clutch
- 5 - Fully enclosed belt guard
- 6 - Standard lifting bail
- 7 - Optional QuickPitch™ blade adjustment
- 8 - Safety shut-off switch
- 9 - Height adjustable handlebar
- 10 - Anti-vibration handle for operator comfort
- 11 - Folding handle for transport

C-Series 24" (610 mm) Width Rotating Guard Ring

The C-Series trowel features a rotating guard ring to reduce manual labor while edging. It enables the operator to finish within 3/16" of obstructions. The high capacity gearbox delivers big machine performance in a small package.

J-Series 36" (914 mm) Width

The J-Series incorporates amazing balance, improved serviceability, and your choice of a Standard or QuickPitch™ Handle, providing contractors with the ideal machine for residential and general construction work.

HD-Series 48" (1219 mm) Width Maximum Performance

The HD-Series is an extra-rugged, heavyduty power trowel designed and built for those tough jobs. Incorporating our HD gearbox and a specially tuned CVT drive system this trowel provides superior performance.

Get a grip on the best.

Our new antivibration handle design dramatically reduces the vibration transmitted to the operator. These height-adjustable handles will increase operator comfort and decrease fatigue over an eight hour day. This feature is standard on both the QuickPitch™ and Standard knob handle.

QXH-Series QuickPitch™ handle

A patented spring-loaded design enables the operator to react rapidly to changing concrete conditions. Blade pitch is increased or decreased in 1/8" increments by moving the latching lever back and forth.

SXH-Series Standard handle

A favorite of contractors who prefer to have infinite blade pitch control. The large knob makes it easy to increase or decrease blade pitch to the desired angle.
