

# LinkTower 7m

The LinkTower is an individual lighting system that has little competition. Quite simply the LinkTower bears all the features and benefits of a standard tower floodlight but with the added benefit of being able to safely link together, resulting in a row of powerful lighting sets all from one power source.

## Suitable for these sectors

Events

Roadworks

Construction Sites

Industry

Rental

## Features at a glance

Metal halide

### Lamps

4X400W

### Illuminated area

2000m<sup>2</sup>

### Lifting system

Manual 7m mast

### Optional

Version with LED lamps

## Features

- > A unique linkable lighting system - dispensing with the need for individual lights with separate power sources
- > Up to four LinkTowers can be linked together and powered from a single power source - lighting up a massive area with just one generator
- > It is easy and cost-effective to transport - six LinkTowers will fit on one standard truck
- > The LinkTower can be set up and deployed by a single person saving time and manpower
- > Choice of lighting styles - halogen or metal halide lamps
- > The LinkTower is fitted with forklift pockets for easy manoeuvrability and armoured cabling is available for secure connections
- > Galvanized telescopic section, with a 7m maximum height
- > 4 adjustable stabilizers
- > Certified wind stability until 80 Km/h
- > Rising system with manual winch with automatic brake, maximum load capacity 500Kg and system of stainless steel 133 wires
- > On/Off switches, one for each lamp
- > Electrical coiled cable complete with housing
- > Pockets and eyelets for lifting the structure with crane or forklift
